### Introduction

#### Candy Cruncher - How Much Candy Can You Crunch?

Crunch lines of candy while avoiding the Dreaded Black Jellybeans!

### How To Install

Use an extractor program such as **WinZip** on the PC or **Stuffit Expander** on the Mac to get at the Candy Cruncher for Palmfiles. Install the game by double-clicking the *prc* file.

Use the **HotSync** button as usual to install the game onto your handheld.

Now run **Candy Cruncher for Palm** and tap the screen to play the game!

If you've got any queries about Candy Cruncher for Palm or the registration process, first check out our **frequently asked questions page** on our website (you must be connected to the internet to access this). If this doesn't help, get in touch with us at [support@astraware.com](mailto:support@astraware.com). If you've got any questions (or suggestions, we love those) about the game itself, please get in touch with us at the email address at the top of this page.

### Objective

The aim of Candy Cruncher is to make whole lines of the same type of candies - either vertically or horizontally!

You have a minimum number of lines to crunch on each level - and after every few levels, another candy is added to the box, making it harder and harder to get lines!

### How To Play

1. Slide the candies around within the box by tapping on them.
2. If there is a nearby space, the candy you tap on will move into it, allowing you to shuffle them all around.
3. As soon as you get a complete line... CRUNCH! they get eaten!

### Features

Candy Cruncher Features:

- Color Graphics Throughout!
- Easy to use interface!
- Animations and Sounds!
- Over 30 levels of fun!
- 15 different candy types!
- Hints and Instructions built-in
- High score table to record your best scores
- Registered users can submit scores to our internet high score table!

## Registering

If you downloaded the game straight from the internet, from Astraware's web pages, or from one of the popular Palm download sites, then your copy is in 'Demo' form. Demo means that you can play 10 games for free, and then decide whether to register it or not. After these games are up, the program will display a short message before each game.

In Demo form, you can play 10 games of Candy Cruncher for Palm for free, as you decide whether you like it or not. After these games are up, the program will display a short message asking you to register or purchase a full version from a shop!

If you **beam a demo** to someone else, and they also like the game, then they can register it either by purchasing a copy from a local store, or by purchasing online.

### Registering Online:

For those that like the speed and convenience of buying of the internet, when you register for the game, you'll get a key which will unlock the game and remain valid for future 1.x upgrades. Go to the web page at <http://www.astraware.com/games/pyrogon/candycruncher> for more details.

You'll need to know your **HotSync ID** which you can find by running Candy Cruncher for Palm, and going into the menu, and selecting the 'register' option. Your HotSync ID (or username) will be filled in for you below.

When you register, Astraware will generate a key based on your ID, which will normally be sent out by email within 48 hours of you registering. When you receive your key, go to the same register option, and enter the key into the space provided.

## Submit your High Scores!

Registered users of the game are entitled to submit their high scores to our Internet High Score table.

Just visit the Candy Cruncher for Palm web pages at <http://www.astraware.com/games/pyrogon/candycruncher> and select the link to view high scores.

To submit your own score, you need to go to the menu in the game, and select 'export high score'. This will provide you with a code which you can then type into our site:

<http://www.astraware.com/ppc/candycruncher/high/>

You can only submit high scores once you've beaten the scores built into the game!

*(Astraware reserves the right to remove this board or facility without any notice, or to remove individual names if necessary)*

## Astraware Products
